

DENTAL SCRAP RECYCLING BEST PRACTICES

VALUABLE DENTAL SCRAP

✓ COLLECT ALL METALS

All metals pictured to the right should be collected and sent in for refining.

✓ SPREAD THE WORD

Make sure all personnel in the office who may come in contact with dental scrap are aware of the collection protocols.

✓ DECONTAMINATION

Clean and dry material ensures the safety of our refiners, and quicker processing.

✓ TALK TO US

We are here to help! Your account manager is just a phone call away. Let us know how we can help.
