

EXCELLENCE IN PRECIOUS METAL REFINING

About Core Scientific

Core Scientific is committed to excellence in refining a wide range of precious metals such as gold, silver, platinum, and palladium. As an industry leader, we work with jewelers across North America to refine their precious metal scrap. Our continued success in the industry can best be attributed to our superior refining techniques and exceptional customer service.

Our refining process takes place entirely in-house, using state-of-the-art technology, ensuring that every ounce of material is handled with precision and care. This capability allows us to offer fast turnaround times and the highest payments in the industry.

We recognize that transparency is the foundation of our relationships, that's why we offer a secure customer portal. Our portal allows you to seamlessly track the progress of your materials, providing peace of mind every step of the way.

Why Precious Metal Professionals Choose us:

- ✓ Full-Service Refining
- ✓ Quick Turnaround, as Fast as 1 Day
- ✓ Flexible Payment Options
- ✓ 24/7 Customer Portal Access
- ✓ Instant Material Updates
- ✓ Guaranteed Secure Shipping
- ✓ Advanced Stone Removal Services
- ✓ Low-Grade Material Processing
- ✓ Exceptional Customer Service
